

La Chasse

Re: COVID-19

Dear Customer,

MARCH 2020

We are in this together.

If you are open and need supplies, we will do our utmost to supply you. We want **all** our customers and ourselves to be around when this virus abates. Our service in the future may not be perfect but it will be the best we can possibly do in the circumstances.

We are committed to our customers and our fantastic staff, and as such are doing all we can on both the health front and the ever changing information front to keep you and our staff safe and informed of all eventualities.

Our staff are washing their hands very regularly, taking their temperatures daily and doing their best to do the social distancing thing. All our drivers have antibacterial spray & disposable gloves in their vans for use before and after each delivery.

Please be assured we are doing everything within our power however small to help you.
